

To Our Patients

As part of our health management program, you can expect a friendly communication from us by phone reminding you about:

- Attending a scheduled appointment
- Scheduling a preventative care appointment
- Managing your chronic conditions

For scheduled appointments, we need to anticipate your arrival in order to deliver the best care possible. As such, you may receive an automated phone call two days prior to your appointment. **Please confirm your appointment by pressing #1 on your phone's key pad. If you need to reschedule, press #2. If you need to cancel, press #3.**

If you have not had visit in several months, you may receive an automated phone call reminding you when it's time to schedule a preventive care appointment or follow-up care appointment for a chronic condition that we may be treating. We will be happy to schedule that appointment at your convenience.

We're confident that you'll like the reliability, ease and effectiveness of this service.

If you have any questions, please speak with someone at our reception desk.
